

Interactive Balancing Equation Game

Game Setup:

Divide the students into two groups.

Each group will take turns solving balancing multiplication and division equations.

The group that answers first and correctly wins the round!

Game Rules:

Each round: Provide a balancing equation for the groups.

Answering Time: The first group to raise their hand or shout out the correct answer wins the round.

Scoring: The winning team gets 1 point. You can keep score on a board or on a paper.

I. Round 1:

Equation 1:

$$\underline{\quad} \times 6 = 42$$

II. Round 2:

Equation 2:

$$72 \div \underline{\quad} = 8$$

III. Round 3:

Equation 3:

$$\underline{\quad} \times 3 = 24$$

IV. Round 4:

Equation 4:

$$56 \div \underline{\quad} = 7$$

V. Round 5:

Equation 5:

$$\underline{\quad} \times 9 = 81$$
