NUMBER LINE

SHOWING DECIMALS FROM 0 TO 1

A decimal number line is a number line that can help us to visualize decimal numbers.

To do this we need to remember that decimals are numbers that have parts that are not whole. Our decimal system splits whole numbers into tenths, hundredths, thousandths, and so on.

Example: This number line goes from zero to one in steps of 0.1.

0   0.1   0.2   0.3   0.4   0.5   0.6   0.7   0.8   0.9   1
